

Good Health Clinic Year in Review 2018

Better Serving Our Community

Good Health Clinic leadership and staff continually strive to assess and meet the ever changing medical needs of our underserved community from Key Largo to Key West. This year we are proud of the program expansions we have been able to make due to local, state, and national support.

Now in Marathon!

Good Health Clinic is proud to have partnered with United Way of the Florida Keys and Direct Relief International to bring access to health care for our friends and neighbors in the middle and lower Keys. Although Good Health Clinic has served this area from our Tavernier office, logistical barriers prevented many patients from receiving services. Now, with a local office, our services are accessible to this community who's in even greater need while recovering from Hurricane Irma.

Currently our Marathon office is open Tuesdays and Fridays from 9:00am to 3:00pm. For information or to apply, patients may contact either office or visit us online.

Dental Care

Seeing an urgent need for our patients, Good Health Clinic partnered with local dentists and Caring for Miami's mobile Project Smile dental bus to increase access to dental care for Keys residents in need. Supported by the volunteer efforts of dentists, dental hygienists, and dental assistants; and funded by Baptist Health South Florida and Ocean Reef Community Foundation, this multi-partner effort made essential dental care possible for over 100 patients so far!

Tavernier Office

91555 Overseas Hwy., Suite 2
Tavernier, FL 33070

Monday – Friday 9AM – 4:30PM
